

PHOTORAMA 2025

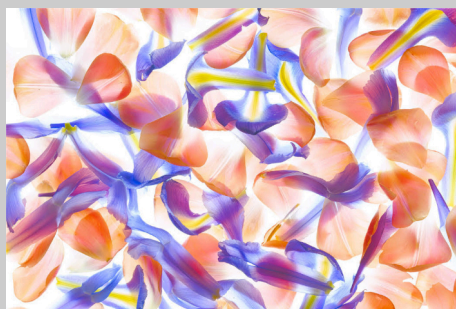

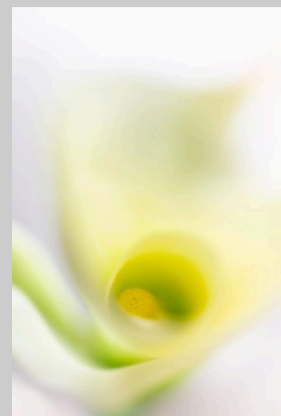

Join the NJ Federation of Camera Clubs for Photorama 2025, for a day long celebration of photography in New Jersey with professional photographers Rick Gerrity and Padma Inguva.

During the morning session Rick Gerrity will take everyone on a photographic journey through New Jersey with his program "Photographing New Jersey". A great travel and photography adventure can begin in your backyard if you take the time to look around the local and rural roads throughout the State. His images will inspire everyone to explore our fascinating state.

During the afternoon session Padma will share techniques for creating stunning floral portraits with a lightbox. She will share information about some of her techniques to bring out the translucency and beauty of the petals. Padma will discuss flower selection, various floral arrangements for better compositions, camera settings etc. A hand-on session with flowers and lightboxes will round out the program.
